STRENGTHEN COMMUNICATION BETWEEN PARENTS AND SCHOOLS

Parents are inherently responsible for their children's well-being. This initiative gives parents more control, oversight, and consent in their child's education and healthcare at school. It emphasizes parental rights first, with schools required to keep parents informed.

PROTECTS PARENTS RIGHTS to view academic, medical, mental health and disciplinary records as well as lesson plans and teaching materials.

ENSURES IMMEDIATE NOTIFICATION when medical services are offered or provided to their child, including any school-based health care that generates insurance charges, as well as notice when follow-up care is needed.

GUARANTEES PARENTAL ABILITY to opt their child out of invasive surveys on sex, gender, or political opinions.

PROTECTS PARENTS RIGHTS to information when their child is being removed from school without parental consent.

IMPLEMENTS SAFEGUARDS for children who are in abusive homes or situations.

Without these protections, teachers and administrators are mandated by the state to keep secrets from parents. When parents and teachers work together, children thrive.
